

# Garden Wise

## Microbial Life

In this episode of Garden Wise, we will show you how to revitalize the microbial life in your soil! Learn about plant nutrition and composting, along with an online tool to help you pick the best plants for your specific garden environment. Finally, review how to check your irrigation water pressure to properly maintain your new thriving garden!

***Sundays at 9:30 PM on City TV Channel 18***  
***Also airs on County GATV 20 Mon-Wed 7:30 PM & 10 PM***
